RE: Day Kimball Medical Group Pediatrics, Putnam and Plainfield Offices

Please be advised that Day Kimball Pediatrics is open to our patients in both our Putnam and Plainfield locations, and we are encouraging our patients/parents to maintain their scheduled well visits and immunizations. We are taking safety precautions to minimize exposure by scheduling only well visits in the mornings and our sick visits in the afternoons only. We are disinfecting our waiting room and exam rooms continuously between patients and undertaking all possible measures to maintain the safety of our patients and our staff.

Please encourage all Pediatric Center patients to maintain their scheduled well child visits instead of postponing until the summer or fall. This will help prevent crowding later in the season and will help spread out the visits and avoid a backlog.

Thank you.

Marc Cerrone, Medical Director
Day Kimball Medical Group Pediatrics
